## Devon's Seafood Grill

Devon overlooks a landscaped park in the center of the Bayshore Town Center complex. The menu revolves around seafood, beginning with the daily selection of fresh fish. The dinner menu adds aged steaks sold separately or with shrimp, lobster or a crab cake. A thoughtful wine list shuns big name vineyards in favor of the smaller, and the service is extraordinary. Additional baking powder biscuits magically appear and water glasses never run low. Devon Seafood Grill may be part of a chain, but it has none of that feel. Simply expect an elegant setting, good service and a menu of solid seafood standards.
