It's 'Striper' season at the Devon Seafood Grill

Devon Seafood Grill, at Bayshore Mall (5715 N. Bayshore Drive), is celebrating its two-year anniversary with a summer calendar of events and 'craveable' seafood served in casual elegance.

After two years of surviving the roller-coaster restaurant market, Devon at Bayshore Mall has established itself as a restaurant known for its fresh seafood menu. Devon offers market-fresh, in-season seafood flown in daily from the Atlantic Coast, Pacific Ocean, Northwest coastline and Alaska. The extra-special offerings means their menu changes often.

For the next few weeks, it's wild striped bass, or 'striper', season, which has a spectacular rich flavor and firm texture. It's only available for a few weeks each year, so now is the time to try it!

Devon also offers a delectable 'prix-fixe' menu (appetizer, entrée and dessert for less than \$35), for a limited time this summer, giving diners exceptional quality at a reasonable price point in this tougher economy.\
